Getting Started: Website

What is the goal of the ground team?

The ground team is responsible for developing the infrastructure for communicating and monitoring the rocket during flight as well as being an umbrella team for all non-flight related systems such as the website and social media.

What is purpose of the website?

The website is the main face of Western Rocketry, it will be used for weekly / monthly updates as well as acting as a portfolio for the rocket

What are the major checkpoints for the year?

1. Create pipeline for posting updates
2. Create "explosion" animation of rocket

Timeline:

October	November	January	February	March
1	1	1	2	2

Next Steps:

- Nothing for now….
